

## Features/Applications

- Patented design for high performance stability in conductive/semi-conductive (such as woods, watering) environment
- Heavy duty tapered rod for maximum durability in tough environment
- High Power Rating (150 Watts)
- Durable UV and chemical resistant polymer shells
- Small/none grounding requirement for operation

## Specification (with proper whip installed)

Frequency:	150 – 174 Mhz
Nominal Impedance:	50 Ohm
Gain:	5.2dBi/ 3dBd
WSWR:	< 2:1
Bandwidth @ 2.0	VSWR: 9%
Power Rating:	150 Watts

## Mechanical Parameters

Color:	Black / Chrome
Connector:	LM Mount
Height:	1.35 meter (Max)
